ABOUT ACADEMIC TECHNOLOGY SOLUTIONS

Academic Technology Solutions works closely with faculty to facilitate the appropriate use of technology in teaching, research, and scholarship. We provide University-wide tools, platforms, training, and digital media support. Through close partnerships with the Library, museums, and research computing units across campus, we help faculty explore new ways of approaching academic endeavors using online tools, digital materials, and other technology solutions.

Visit academictech.uchicago.edu for more information.

WE CAN HELP YOU...

**Build your course site in Canvas**
Build your course site and use more advanced features to streamline your grading, assess student progress, promote collaboration, and more. See our workshop calendar at courses.uchicago.edu/workshop-schedule. If you’re new to Canvas, we can help you learn the platform and understand your options to migrate content from Chalk.

**Integrate advanced teaching tools and techniques**
Explore advanced teaching tools and techniques with blogs, wikis, Google Apps, video assignments and pre-recorded video lectures. Design creative assignments that excite students and help them achieve learning goals. Create more engagement during class with higher-order thinking exercises and collaboration. For a list of University-provided tools, see academictech.uchicago.edu/tools. Contact us for a consultation.

**Create new digital media materials**
Convert older media into digital formats that provide more flexibility in use. We can also partner with you to create new visualizations and graphics to better communicate concepts, data, and processes for your courses, research, or publications.

**Set up and borrow audio-visual equipment**
Learn to use and leverage audio-visual equipment in your classrooms. If what you need is not available in your classroom, you may borrow audio-visual equipment for instructional use free of charge.

**Get technical support**
The IT Services TECHB@R, located on the first floor of the Joseph Regenstein Library, provides convenient walk-up technology support, equipment lending, consultation space, and video conferencing capabilities.

---

**Get training via lynda.com**
Learn how to use statistical, design, and office software, plus much more through lynda.com, a video-based e-learning resource. Access it with your CNetID at lynda.uchicago.edu.

**CONTACT US**
We are happy to chat with you about any ideas you may have at any stage of your work. Please contact us 8am-4pm if you would like more information or to schedule an individual consultation.
